We are Marketing Nottingham and Nottinghamshire, and we pride ourselves on being the driving force behind the growth and prosperity of Nottingham and Nottinghamshire. Our organisation is composed of four dynamic divisions, each dedicated to a specific aspect of our mission - to showcase our region as vibrant, innovative, and economically thriving destination and to foster business growth and prosperity. Let's take a closer look at what each division does.

Visit Nottinghamshire is the official Destination Management Organisation (DMO) for the region and the heartbeat of our leisure and business visitor initiatives. We work tirelessly to showcase Nottingham and Nottinghamshire's rich tapestry of businesses, local traditions, culture, shopping, sports, and heritage.

While our primary goal is to attract visitors, we also contribute to the success of local businesses. By promoting the unique attractions, events, and experiences that Nottingham and Nottinghamshire have to offer, Visit Nottinghamshire helps create a positive image of the region. A flourishing tourism industry means more foot traffic for local businesses, increased demand for services, and a boost to the overall economy. Our division collaborates with over 370 businesses to propel the visitor economy, estimated at an impressive £2.051 billion. It also manages the award-winning Tourism Centre and oversees the most popular online event portal in the region.

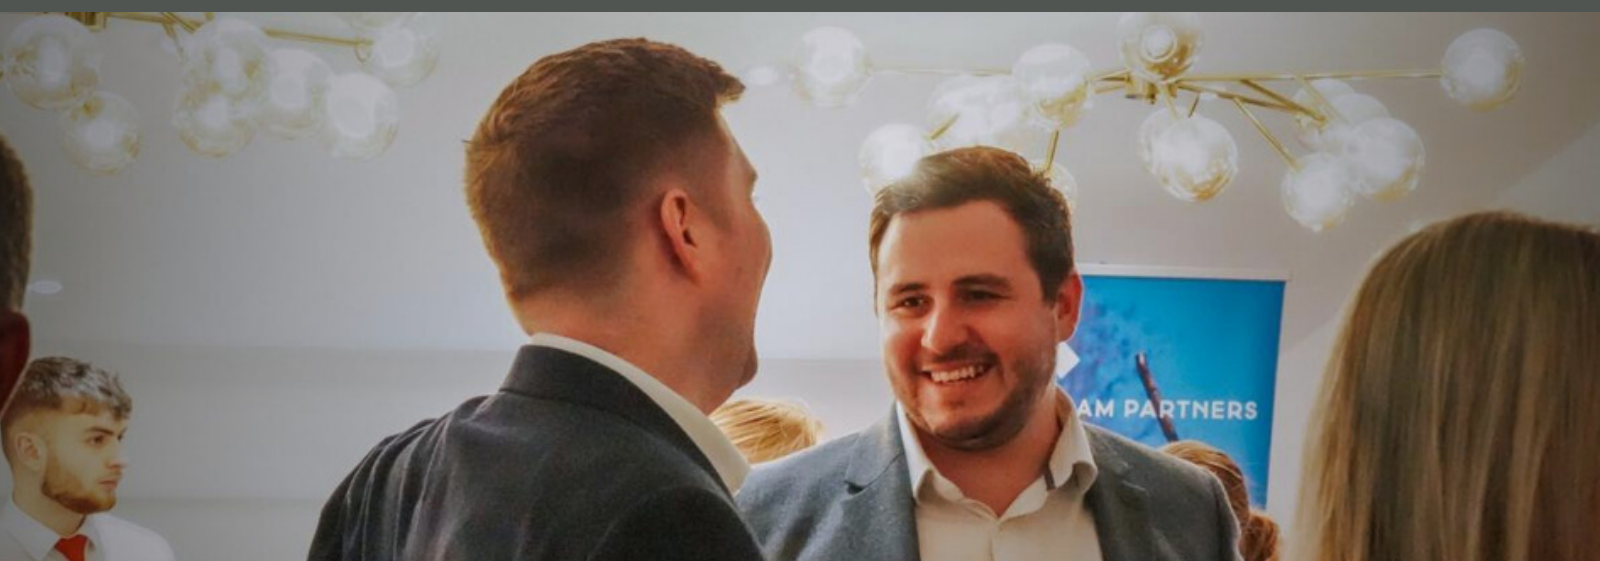

Meet in Nottingham is the official Convention Bureau for the region dedicated to attracting business visitors. It plays a crucial role in positioning the region as a premier destination for conferences, events, and business meetings. By offering support and guidance to event organizers, they ensure that Nottingham and Nottinghamshire remain at the forefront of the meetings and events industry. This not only brings revenue directly through hosting events but also enhances the visibility of local businesses on a global scale.

Our one-stop-shop approach to event planning includes a range of free services such as venue finding and ensuring your event is seamlessly executed.
