

# At the CENTRE of it all

VISIT NOTTINGHAMSHIRE

Whether it's the excitement of a match, the buzz of a live performance, or the magic of the city lit up at night, Nottingham puts you at the Centre of the action, and more.

When you're here, you're not just passing through; you're immersed in the energy, the culture, and the rhythm of a city that makes you feel like you're right where things are happening. It's a place where every visit is an experience, and every corner holds something special.

**At the Centre of it all** has officially launched, and we've created a Partner Pack to help you tap into this excitement and share it with your audience across your own channels. The Campaign Playbook provides everything you need to bring a unified voice to your messaging, as we all work together to highlight Nottingham as the destination that keeps you at the heart of it all.

## INSIDE THE PACK, YOU'LL FIND:

- Customisable social media templates
- Campaign stickers and partner logos
- Space to showcase your own images and calls-to-action

Make the most of these tools to promote your events, experiences, and offers, and invite visitors to feel the pulse of Nottingham, the Centre of the action.

Tag us in your campaign content for  
cross-promotion opportunities!
